As a Councillor-at-Large for 4 Years, he has faced the problems of our City during critical periods of its growth, and he has worked toward the solution of these problems.

As a newspaperman for 25 years, he has during this period reported to the public for The Peabody Times and the Lynn Item the proceedings of the meetings of our City Government.

Edward T. Meaney has been, not only a student of municipal government and administration, but a worker in these important fields. His knowledge is not only from the classroom, but from the experience in the workshops of the Council Chamber, the School Committee Room, and many City Departments.
